DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 and 14-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- It is unclear if the recitation “a respective recessed channel” refers the recessed channels previously recited in line 3 of claim 1 or to additional channels.
Accordingly, the scope of the claim is unclear.
- It is unclear what elements the pronoun “its” (claims 2 and 3) is meant to refer to.
- It is unclear which, if any, of the previously recited “overlapping arms” (line 4 of claim 7) the limitation “the arm “ (line 10 of claim 7)

For the reasons mentioned above a great deal of confusion and uncertainty exists as to the proper interpretation of the claim limitations. In accordance with the MPEP § 2173.06, rejection under 35 U.S.C. 102 or 35 U.S.C. 103 follows based on the examiner’s best understanding of the claim scope. The applicant is strongly urged to amend the entirety of the claims (not only the examples listed above) to conform to current U.S. practice.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3679

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 and 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Henkel (EP 0833018 A2).

Henkel appears to disclose all of the applicants elected claim limitations as best understood by the examiner (see 35 U.S.C. § 112 2nd paragraph rejections above).
